NIGERIA AND POLITICS

THE ECONOMY IN NIGERIA

The spirit of God says the Nigeria economy needs a lot of prayers for it to be revived. The economic policies and activities need to be well moderated and coordinated in order to achieve desired results.

I foresee the government in Nigeria will launch Digital currency. The spirit of God says Digital currency will not help our economic woes as expected. The digital currency will only help economy if government agrees to do the right things that will boost the growth of the economy.

Also, the Nigeria government will squeeze the Opposition Parties. I foresee the Opposition will be reduced to nothing in the scheme of things.

Government will look for various ways to bring the economy back on its feet. I foresee the economic indices will be fluctuating.

I foresee that under the current realities, the cefa will be stronger than the Naira. Also, the Dollar to Naira will rise to #1400 and this will shake the economy so badly there are forces that are hell bent at frustrating the Tinubu led Federal government but they will not be successful. The spirit of God says those who are scheming to frustrate it are people that he is closer to.

The economy will be fluctuating (rising and falling} to the extent that the Central Bank of Nigeria will cry out. The opposition will take several steps to fight the present government but they will miss their strategies. The Government palliative is part of the things that is ruining the economy and have not added anything good to the economic revival.

Local rice will go to #45,000

Imported rice will be #80,000

Coca cola will be #300

Pure water will be sold at the rate of two for #100.

The government is yet to structure the salary properly. The Salary will not help the economy to grow, the workers have not noticed this.

Biscuit will go to #100, #150, #200 while a bottle of palm oil will go to #2,000.

If the government did not listen to my advise now, the economy will go down beyond what we are saying.

The level of poverty with the solution that government is bringing in will be heating the polity and causing hyper-inflation.

If the government did not reduce the level of poverty in the country, there will be total insecurity in the country. The government must work on issues that will not threaten security and proffer solutions to economic problems for the country to forge ahead.

The spirit of God says Insecurity will bring more inflation if the government did not handle things as expected. I foresee that this way, the Police and the Army will protest especially people at the war zone will protest because of irregularities in their salaries. They will be owed

and will call for salary increment. I foresee there will be corrupt practices on the part of people handling the money. The spirit of God says there will be so much pressure on issues that has to do with security.

The government of Nigeria must work on five things in 2024 which can make the country to be great

1. Stable light.
2. Improve on security and buy more weapons.
3. Development of Infrastructural facilities.
4. Agriculture (plenty of food).
5. Create Employment.

These are the things God said the government of Tinubu should look into and leave other things for now if they want hardship to be reduces drastically. Otherwise there will be compounded problems of hardship.

Let us pray fish will not be dying in our sea's or what will cause the destruction of the habitats for the fishes. I foresee that fish will be very expensive in the market.

I foresee there will be a new political party by the end of 2024.

There is nothing the government will do as regards Petroleum products for I foresee there will still be increment in the Pump price of petrol even as there will scarcity of petroleum products in 2024.

Let us pray so that a boat will not capsized in Nigeria come 2024.

BUDGET 2024

I foresee that the Budgetary provisions as spelt out will not affect the economy significantly the way it is expected. The spirit of God says there will be so many loop holes in the Budget and many of the major highlights as detailed in the budget will not be executed satisfactorily as expected.

Furthermore, I foresee the Nigeria economy will be fluctuating, it will be unstable and inflation rates will rise up astronomically. The economic stability will crash down to very low levels despite the fact that Central Bank of Nigeria {CBN} and the federal government will be working to find a way forward. I have not seen anything better for the future looks gloomy.

The prices of essential commodities will skyrocket. There will be scarcity of flour, charcoal price will increase, the prices of cocoa products will be fluctuating. I foresee an increase in the price of cocoa in the international market.

The spirit of God says the Nigeria government will still borrow more money otherwise the Administration will not make serious headways in all spheres of its developmental efforts that will make things and thus make things better and thus bring joy and enhance the economy.

The spirit of God says the government at the Centre should collaborate with the states especially the states having solid minerals or natural resources like lithium, potassium, gold, Zinc and diamond deposits. The spirit of God revealed to me that this is one of the many steps that government can take to make Nigeria better. Efforts must be made too to invest in

agriculture and encourage creativity and improvements in the home or made in Nigeria products.

I foresee that failure on the part of the government at all levels in these areas will worsen the state of our economy and thus the rich and the poor will be affected. I foresee that if we are not careful, a time is coming when there will be things to buy but there will be no money to buy such goods and services.

THE SENATE

I foresee that in the Senate Chambers, the Opposition Parties will be squeezed and there will not be room for any common sharing of positions. The leadership will look down on the Opposition members. The spirit of God says the Senate will not be as effective as needed. I foresee some members of the Senate will be indicted for wrongdoings. I foresee that a new platform and a new National Assembly Complex is imminent. Because the National Assembly will need a total renovation. I foresee that some Senators will be sentenced to life imprisonment.

THE SENATE PRESIDENT OF NIGERIA

The Senate President Godswill Akpabio will have it rough with some Senators and he will be blasted. I foresee that Senators will look at Akpabio eye to eye and will not see Akpabio as a person who is in control of the Senate Chambers activities. Godswill Akpabio will not be able to say anything, including the policy of the government and everything government is doing is well accepted either good or bad. I foresee that Akpabio will develop hatred for his critics in the Senate as they will be sidelined. Senate president must watch his health seriously in the month of August, September and October, he must not over do things.

NATIONAL SECURITY ADVISER (NSA)

The spirit of God revealed to me that there will be serious moves underground to effect the removal of the National Security Adviser. I foresee that the current NSA will do more in rendering quality services to the country and the President on security related issues in sharp contrast to what the case used to be. The spirit of God says the moves to remove him will not see the light of the day. There will be serious moves to condemn most of his ways and actions in office.

The spirit of God says the NSA should create the Spiritual Intelligence Department to coordinate Spiritual pronouncement and divine directives from God on security in the country. I foresee that this government needs it and with immediate effect too. The NSA must not ignore this advice in order for him to succeed. I foresee there are lots of challenges security wise ahead of the country.

Critics will raise issues about the efforts of the NSA. The man in the saddle will work diligently and with determination as revealed by the spirit of God.

GOVERNORS FORUM

The spirit of God says we need to pray fervently so that the Governors Forum will not be bereaved. Let us pray so that the governors will not be getting confused or that the governors will not be trading words with themselves. Let us rebuke through prayers what can cause misunderstanding in the Forum as revealed by the spirit of God. Let us pray so that no governor

will be involved is an accident, be indicted before leaving office or lose any of their Aides in terrible circumstances.

DEPUTY GOVERNORS

Let us pray for the Deputy Governors so that there will be no impeachment moves against any of them. Let us rebuke situations in which any of them will fall sick terminally. Let us rebuke through prayers cases of indictments against the Deputy Governors. I foresee that some of the Deputy Governors and their principals {the Governors} will be fighting themselves.

THE ASO ROCK VILLA

The spirit of God says let us pray against problems in the Aso Presidential Villa. Let us pray against fire outbreak, attacks or losing anybody in the Villa. Let us rebuke acts of disorderliness. I foresee there will be a proposal for the construction of a new Presidential Villa. There will be leakages of classified documents in the Aso villa as revealed by the Spirit of God.

The spirit of God revealed to me that the ASO VILLA needs spiritual cleansing because of strange happenings hovering over and around the place.

PARTY POLITICS

I foresee some political parties will form a coalition to fight Charles Soludo of Anambra state. The spirit of God says the APC will thwart and truncate any coalition planned to unseat the Party at the Centre in 2027.

I foresee that except the PDP rebrands its structure and do all that is needful, the PDP will have issues in future political contests. The PDP needs to re-strategize as shown to me by the spirit of God. APC will have some cracks that will need urgent attention. I foresee that their own time of tribulation awaits them. Leadership crisis in APC is imminent. These are the words of the Lord.

I foresee total crisis in APC, because Tinubu will come with some decisions that will sideline some people. I foresee too much display of dictatorial power in APC.

Some key Party members will leave PDP and APC but they will receive shocks at the end of the day. I foresee government will close down some schools and some hospitals will be shut down also.

ALL PROGRESSIVES CONGRESS {APC}

The spirit of God says the APC is scheming to turn Nigeria to a One-Party State. If the PDP failed to wake up from its slumber, I foresee that some of their prominent members will be moving to the APC in droves. I foresee mass de-camping or cross carpeting of political gladiators especially in the Houses of Assembly.

PEOPLES DEMOCRATIC PARTY

The spirit of God says the States that the PDP won in the last governorship polls must be careful and jealously guided so as not to be taken away from them or be frustrated by court cases or the activities of enemies

THE SOUTH EAST GEO-POLITICAL ZONE

I foresee the Government will rise against the SIT AT HOME Order by militants in the South East of the Country. The Federal and State governments will be making all efforts in this regard. Nnamdi Kanu will be a factor in the political dynamics of 2024 in the South East and Nigeria. The political bigwigs must be careful in their calculations on this because the main people that are blocking his release must agree first before they can release Nnamdi Kanu. I foresee that whether Nnamdi Kanu is released or not it cannot stop the Movements and the agitation for a separate state of Biafra.

SALARY ADJUSTMENT

I foresee that what the workers want is not what the government will do. Some states will not be able to pay the newly approved salaries for public servants. The spirit of God says Government must work on the issue of salaries in order to promote industrial peace and ensure acceptable and uniform salary structure nationwide. I foresee that Salary problems will kill the economy of some states. I foresee that the NLC and government will have serious issues on wages and emoluments.

The spirit of God says government will be hiding a lot from the masses. I foresee that the people close to the seat of power will expose a top secret about the plans of government.

Government must be watchful and try to hide sensitive confidential documents from every Dick, Tom and Harry and also check mate the activities of sycophants that are plotting the downfall of this government.

I foresee that the House of Representatives and the Senate will share common ideas and they will never be able to do needful things that will benefit the Nation. All these notwithstanding, the government of the day must be watchful and careful not to face disappointments.

The spirit of God says we need to pray against fire outbreak at the Federal Secretariat Abuja

I foresee the efforts of this government will be thwarted by the disloyal people masquerading in the Corridors of power undetected. The government will be hiding the truth from the truth by speaking from both sides of the mouth.

I foresee there will be high cost of living as tariff on goods and Services will be raised and taxes will be too high despite the fact that the goods are not contrabands. The spirit of God says the economy will still be very difficult to manage. The government needs to do something good for the people and seek the face of the Lord for divine direction.

Nigeria will attempt to introduce price control measures but it will not work.
